# CHARACTER TOOL

## HOW TO INSTALL?

Move **Character Tool.jsxbin** file to the following location:

**Windows:**      Program Files/Adobe/Adobe After Effects #/..  
                    ../Support Files/Scripts/ScriptUI Panels

**Mac OS:**        Applications/Adobe After Effects #/Scripts/ScriptUI Panels

Restart After Effects. Make sure that **Allow Scripts To Write Files**  
**And Access Network** option is selected in:

**Windows:**      Edit > Preferences >Scripts & Expressions ("General" for older than CC2019)

**Mac OS:**        After Effects > Preferences > Scripts & Expressions ("General" for older than CC2019)

Now you can open the script panel by choosing it in Window menu.
