Toon Boom Studio™ Importer for Flash™ MX

Feature Snapshot

- Powerful paperless sketching and drawing tools
- Automated, flexible ink & paint
- Unique 3D compositing
- Time-saving lipsync
- Soundtrack editing tools
- Reusable templates
- Optimized output to SWF, QuickTime and iMovie

Toon Boom Studio™ revolutionizes 2D animation production for the web and beyond. Offering an end-to-end solution, Toon Boom Studio™ is a studio in a box that combines the best of traditional and digital animation tools with innovative features that will unleash your creative potential, while respecting your need for production control.

With the release of the Toon Boom Studio™ Importer (TBSi) for Macromedia® Flash™ MX, Toon Boom Studio projects can be imported directly into Macromedia Flash™ MX, resulting in streamlined workflow for adding interactivity to your animated shorts.

Nuts and Bolts

When you import a Toon Boom Studio™ animation into Macromedia® Flash™ MX, you are given full control over how your content is handled:

- Select the scenes, elements and frames you want to import.
- Maintain the layering order of elements or composite all elements into a single layer to preserve 3D sceneplanning composition changes .
- Import and modify sounds with the envelopes you created in Toon Boom Studio™.
- Add new content to the current scene, or create new scenes.

Explore the Possibilities

After you import a Toon Boom Studio™ project, use Macromedia® Flash™ MX to add interactivity that will engage your audience and keep them coming back:

- Storytelling: Add interactive buttons to launch camera moves.
- Educational: Lip sync responses to your students' input easily with Toon Boom Studio™ and provide animated feedback.
- Gaming: Create multiplane scenes in Toon Boom Studio™ that are accessible through programmed interaction. Create *choose your own adventure* stories!
- Web design: Create unique, animated interfaces, like animated avatars that move through 3 dimensions and talk!

Put Toon Boom Studio™ in your animation toolbox and create fresh, animated, vector content for the web, while respecting the need for modest-sized files.

Together with Macromedia® Flash™ MX, you'll be equipped with a complete production platform for the creation of interactive entertainment.

TBSi is available on the Macromedia® Flash™ MX CD in the Goodies folder. Get more information on TBSi from our website:
