

1

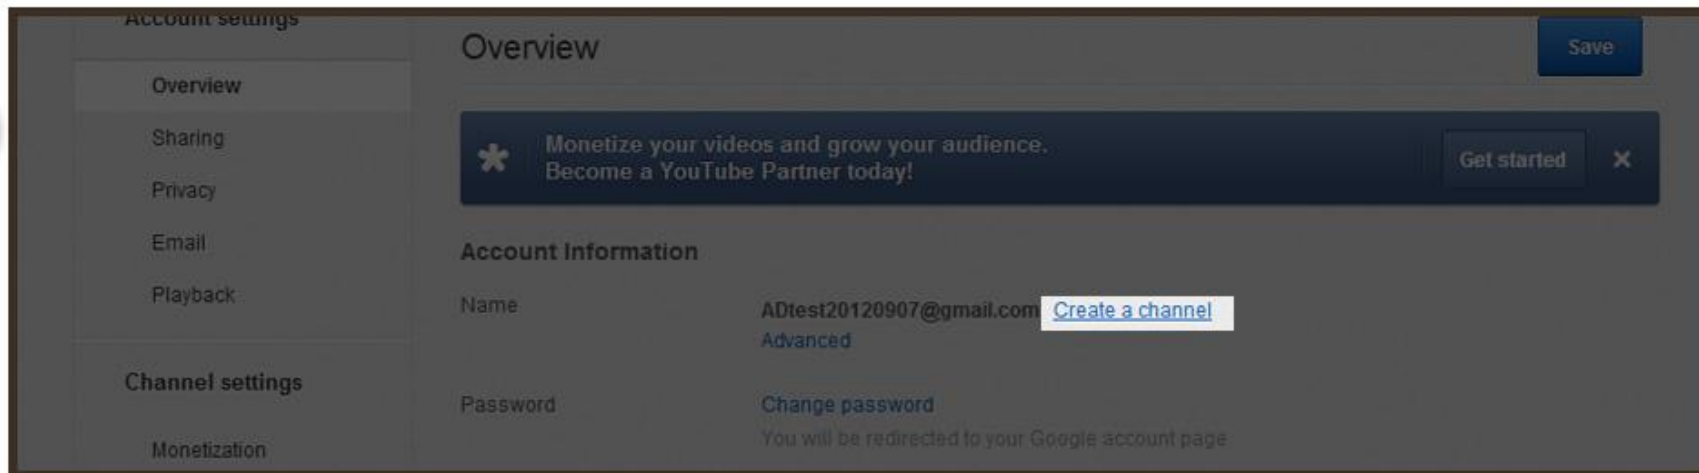

1.Login your YouTube account and click on your account at the upper right corner.

2

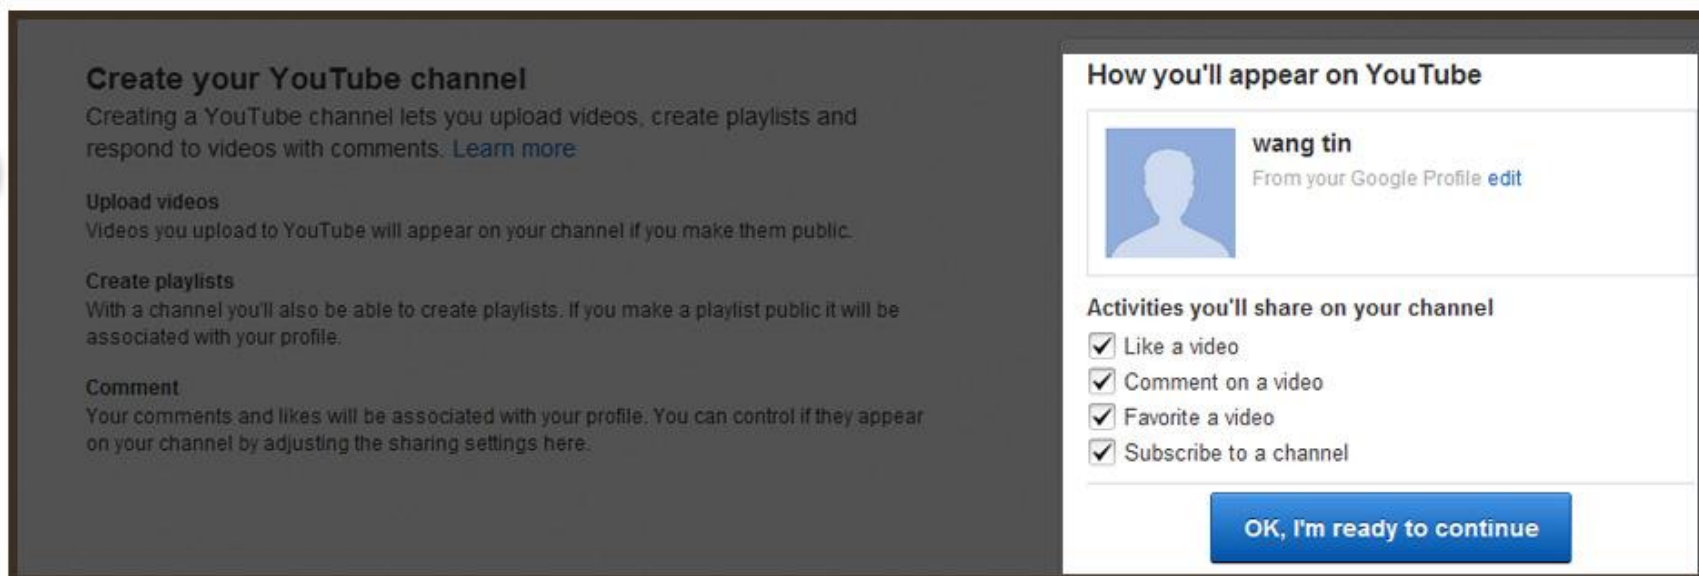

2.Go to YouTube settings.

3

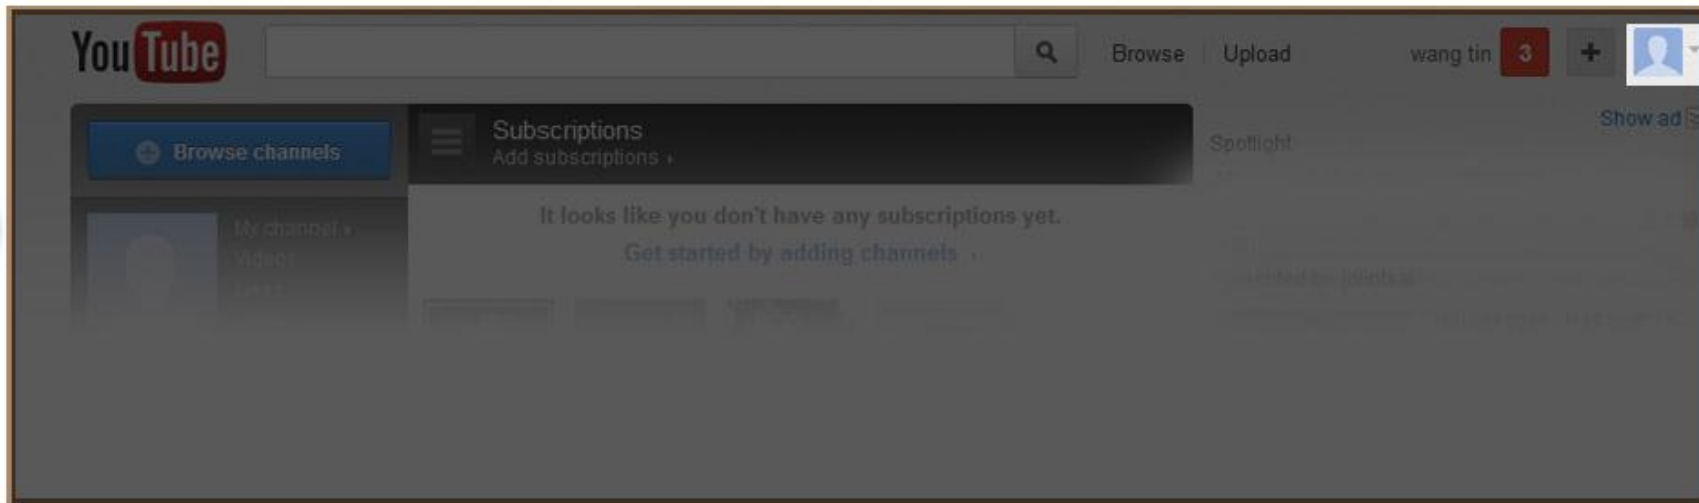

3. Click "Create a Channel"

4

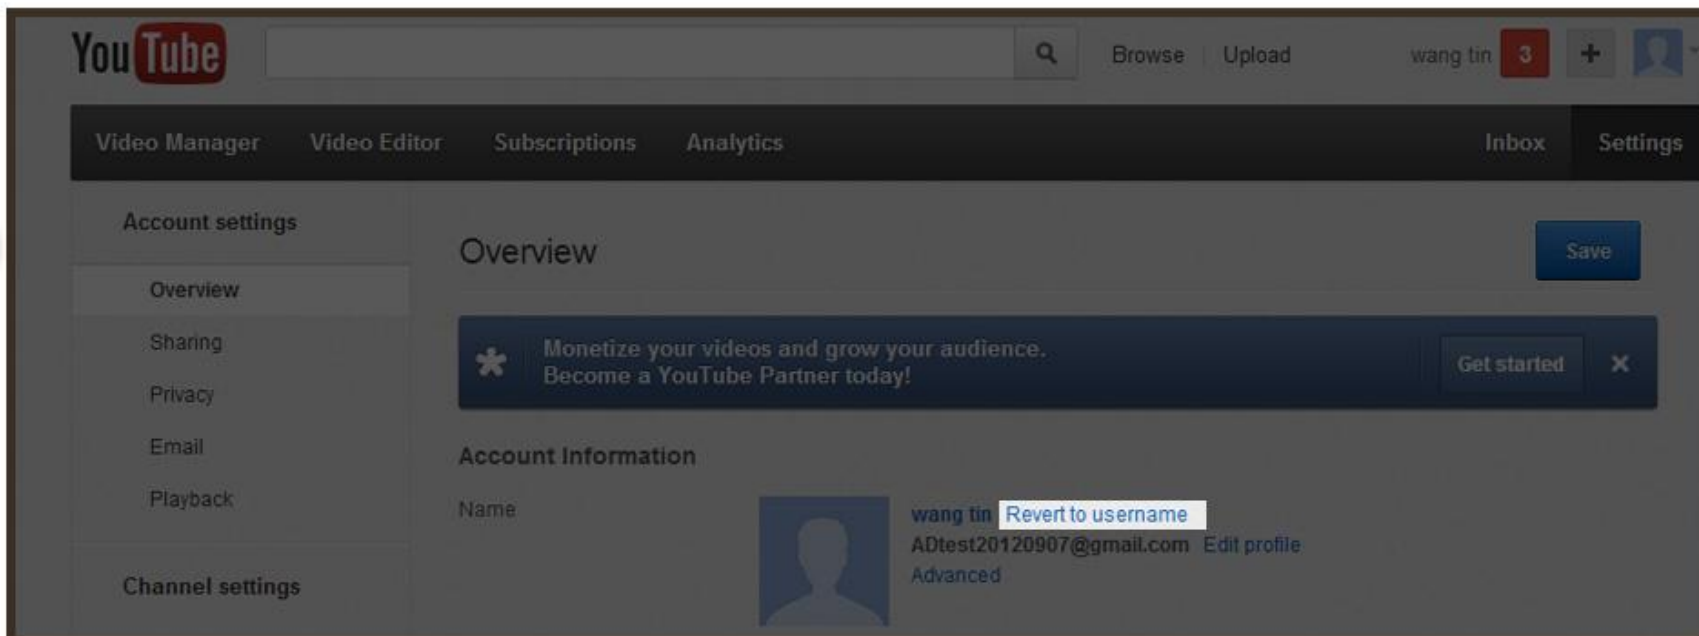

4. Now YouTube has been integrated with Google+ and here you will see your username displayed as your Google+ ID. You can click "OK. I'm ready to continue" when you are done.

5

5. Click on your account again.

6

6. Click "Revert to username"

7

**Create a username for this channel**

Create a username for this channel. The existing channel will be renamed and the current profile photo will be deleted.

**Important note:** Once you've set your username it cannot be changed.

**Create Username**

ADtest20120907

Your username can contain only letters and numbers.

☒ I understand that my channel will be renamed.

**Create Username**

7. Here you can create your exclusive YouTube username. This username also refers to the name of your YouTube channel.

8

✓ You have selected a username. Your new channel url is <http://www.youtube.com/user/ADtest20120907>.
